

INDUSTRIAL REVOLUTION TOUR 2020 BIKING ROUTES

The amazing Industrial Revolution sites we will visit are connected by some of the best biking roads not only in the UK, but the world.

The mostly ancient routes developed by traders are still in existence and mostly unspoilt and traffic free. On the following pages you can see the suggested routes and images taken from these routes.

These routes and Industrial revolution sites to visit will be published in a riders manual for the tour, but for now please enjoy and sign up for this amazing Scramblers Tour.
