

BDR & BREAKFAST

Join the Scramblers for Breakfast and a Motorcycle Movie! Join us, on Saturday February 12th at Woodstock Harley-KTM for a showing of the WYBDR Documentary Film. We will meet at 3 Brothers Restaurant at 9:30 before heading over as a group to see the film.

About the WYBDR:

Riders will test their skills and endurance on this epic 950-mile backcountry tour of Wyoming spanning from the northern border of Colorado to the southern border of Montana. The tracks wind through five mountain ranges and explore vast high-desert regions on public dirt roads and primitive double-track. Expect scenic views, endless forest roads under a canopy of trees, high-desert terrain, flowing curves, rocky expert-only sections, and alpine elevations reaching 11,000 feet. Riders will traverse two major rim escarpments and pass through many seldom visited areas and historic mining towns. This route regularly throws unexpected challenges at riders, and almost every section includes some technical riding. WYBDR is the most remote of all the BDRs, so preparedness is key to a successful WYBDR adventure.
